215,000,000 BUSHELS.

AUSTRALIA'S HARVEST

Mr. C. H. Wickens's Estimate. 6-11-30

The Commonwealth Statistician (Mr. C. H. Wickens) estimates that the Australian wheat harvest will amount to 215,000,00 bushels.

This would be a record for Australia, the record being in 1915-16, when previous 179,000,000 bushels were harvested.

The area expected to be harvested for grain is 18,167,000 acres, which exceeds the record of the previous year by more than 3,255,000 acres. The anticipated yield is 11.83 bushels an acre. For the 10 years ended 1929-30 it was 12 bushels.

Mr. Wickens's estimates of the acreages and yields of the various States are:—New South Wales, 5,190,000 acres, 72,000,000 bushels; Vic-Queensland, 300,000 acres, 55,500,000 bushels; Queensland, 300,000 acres, 4,500,000 bushels; South Australia, 4,100,000 acres, 33,000,000 bushels; Western Australia, 3,950,000 acres, 49,500,000 bushels; Tasmania, 17,000 acres, 500,000 bushels; 500,000 bushels.

AUSTRALIAN WILLAI.

Increased Areas Under Crop.

Thursday.—The Government PERTH. Statistician (Mr. S. Bennett) estimates that 4,208,998 acres are under wheat, a record increase of 423,170 acres. About 3,980,000 acres

will be stripped for grain.

The area under oats is 554,150 acres (a decrease of 136,944 acres), of which 80,000 acres will probably be used for green feed.

There are ten thousand wheatgrowers, an

increase of 509.

ADELAIDE, Wednesday.—The Government Statist (Mr. W. L. Johnston) estimates the area under wheat in South Australia this season at 4,500,000 acres, an increase of il2,690 acres. If only the average of the past en years, viz., 10\(^3\) bushels per acre, is reaped in aggregate yield of over 44 million bushels rould result.

Principal Crops—Australia, 1924-25 to 1929-30—continued. AVERAGE YIELD OF WHEAT PER ACRE, 1924-25 TO 1929-30.

(a) Including Federal Capital Territory. (b) For year ended previous 31st December.
(c) Estimate for 1929-30, 910,000,000 lb.

Note.—In the total figures published above, the discrepancies in the returns of wool by land-holders compared with those obtained by taking exports plus local consumption returns have been eliminated. As the result of exhaustive inquiries in New South Wales, South Australia, Western Australia, and Tasmania, the statistics for those States have been revised by their respective Statisticians. Pending similar action the figures for the remaining States have been amended provisionally on the datavasiable at the moment.

⁽b) The average number of hands employed during the year 1928-29 has been computed in accordance with a resolution of the Conference of Staticians held in 1928. The effect of this change in method is designed to show the average number of persons employed over the whole year rather than the average over the period worked as in the case of a seasonal factory which is engaged only for a portion of the year. The employment figures for 1927-28 and for previous years have been recomputed on a similar heads year. basis.

and Inter-State groups of organizations in Australia. They do not represent the total number of organizations which are practically independent and self-governing. (b) Includes not only branches of separate State unions and sub-branches in each State of Inter-State unions, but also head State branches of Inter-State unions. (c) Includes unions in Federal Capital Territory.

Classification of Trade Unions in Australia according to Number of Members at end of Years 1924 to 1928.

⁽a) Plus child allowances.
(b) None declared, but follow Federal rates to large extent.
(c) Although the family unit is not specifically defined in the legislation of these States, the tribunals appointed to determine the basic wage have adopted the unit of man, wife and two children.
(d) Basic wage for country districts—males, £4 5s.; females, £2 5s. 11d.

Section VII. Retail Price Index-Numbers—Food, Groceries, Housing, etc.

Note.—Commencing with the first quarter of the Year 1925 the basis of computation for housing accommodation was altered. Previously, the weighted average rent of all houses had been taken for the rent constituent. In the tables on the following pages (excepting p. 79) the weighted average rent of 4 and 5 roomed houses only has been taken. The index numbers in the table on page 79 prepared for the use of the Commonwealth Court of Conciliation and Arbitration include the weighted average rental of all houses with base of table—Six Capital Cities in 1911 = 1000. With the exception of this table retail price index numbers, since January, 1930, have been computed to a new base, viz.—Six Capital Cities—1923-1927 = 1000.

Retail Price Index-Numbers.(a)—Capita! Cities, 1911 to 1929.

Base in each Section: — Weighted Average of Six Capital Cities during five yearly period—1923-1927=1,000.

Note.—The index-numbers given in the separate parts of the table cannot be compared with each other in order to show the relative cost of (say) housing, and food and groceries, since the weighted average cost for the six cities taken together in 1923-1927 in each group or combination is made equal to 1,000.

Note.—This table is prepared for the Commonwealth Court of Conciliation and Arbitration on a different basis from those given on the five preceding pages. As indicated by the heading in the table the rent constituent is based upon the weighted average of all houses. It is comparable with those published in issues of the Quarterly Summary previous to No. 99, but not directly comparable with those on pages 74 to 78 of this issue, owing to the difference in the basis of housing accommodation.

Retail Price Index-Numbers (Food, Groceries, and Housing—all Houses) for each of Thirty Towns for the periods specified, with Weighted Average of Food, Groceries, and Rent of all Houses for the Six Capital Cities in 1911 as Base = 1,000.

	19	29.	19	30.	Index-Nu Twelve end	m bers for Months
State and Town.	Third Quarter (July to Septem- ber).	Fourth Quarter (October to Decem- ber).	First Quarter (January to March).	Second Quarter (April to June).	31st March, 1930	30th June, 1930.
